Creating a Z-fold card is super-simple easy but looks so impressive! Simply start with a standard cardbase, folded in half, and then fold the front panel back onto itself so it's only half the size of the card base. Cut a mini strip (in this case, it's the Balmy Blue piece) which is also folded in half, and one side folded back onto itself. Then just flip the piece around so that the large side of the mini strip is on the smaller side of the card front.

**Instructions:**

1. Stamp lighthouse and Sailboat images onto Crumb Cake scrap of paper using Night of Navy ink; then crop with the framelit dies.
2. Fold and crease card base, and mini strip on score lines using the Bone Folder to get sharp creases.
3. Adhere Whisper White to inside panels.
4. Stamp sentiment onto the smaller section of the Balmy Blue mini strip.
5. Adhere mini strip to card base (think opposites – the larger 5-1/2" section of the mini strip adheres to the smaller 2-3/4" card front. Only apply adhesive to the back of the mini strip where it will come in contact with the card base.)
6. Using dimensionals, attach Lighthouse and Sailboat to mini strip as shown in photo.
